

Every good surveillance system starts with the no. 1 VMS

Milestone Systems is the no. 1 video management software provider in the world*. We offer a proven system that is the platform of choice for over 150,000 installations worldwide.

When you choose Milestone, you get an easy, reliable installation process, free training and worldwide support in your language. With Milestone, you get more than a VMS. You get a partner to help you grow your business now and in the future.
